

SimpleLightBox

Einfache Lightbox mit Gallery Function

Vorschau / Beispiel

Examples

Thumbs gallery

Lets start with one of most common use cases - a gallery of thumbs where each thumb should be enlarged when clicked. Once light-box is up you should be able to traverse images in collection either via arrows on screen or keyboard controls (gamers might appreciate that "a" and "d" will work as arrow keys do).

Source Code Beispiel

| [html](#)

```
<html>
<head>
<link rel="stylesheet" href="dist/simpleLightbox.min.css">
<script src="dist/simpleLightbox.min.js"></script>
</head>
<body>

<div class="imageGallery1">
  <a class="x" href="demo/images/4big.jpg" title="Caption for gallery
```

```
item 1"></a>
  <a class="x" href="demo/images/5big.jpg" title="Caption for gallery
item 2"></a>
  <a class="x" href="demo/images/6big.jpg" title="Caption for gallery
item 3"></a>
  <a href="http://www.test.de" >Test</a>
</div>

<script>
  new SimpleLightbox({elements: '.imageGallery1 .x'});
  // or if using jQuery
  // $('.imageGallery1 a').simpleLightbox();
</script>
</body>
</html>
```
